The Centre for Community Innovation and Design (CCID) would be a shared multi-tenant space for artists, small organizations, and small businesses that are environmentally and socially responsible. The centre, depending on your feedback, would offer

- healthy, functional, and affordable workspaces
- resources to support creativity, innovation, and community economic development, and
- would facilitate collaboration

This workshop is an opportunity to share your preferences and requirements around space, services and programs, and your vision of a CCID for Waterloo Region.

Agenda

Presentation: Shared multi-tenant spaces

Feedback: Your vision, requirements, & preferences

Discussion: Significant points and insights
